

Exclusive Distributor of Philips Smart locks

### Philips 603E-5HWS Smart Lock

Availability: **In Stock**

Brands: Philips Smart Lock Brand

**1,742.00** inc VAT

The Philips 603E-5HWS Smart Lock brings seamless, fully keyless access to modern apartments and homes. With built-in Wi-Fi connectivity, it connects directly to your home network—no separate gateway required—giving you instant remote control and monitoring through the EasyKey app.

**Key Benefits:**

- **Built-in Wi-Fi** – Direct network connection, no gateway needed for remote control.
- **Multi-access options** – Fingerprint, PIN, RFID, or app entry for flexibility.
- **Smart app features** – Share codes, monitor access logs, and manage entry in real time.

Free same-day or next-day delivery available in Dubai.

## Philips 603E-5HWS Smart Lock Application Functions

### 1. Real-Time Access Records

Monitor unlock history and user activity via the Philips EasyKey app. Each entry is time-stamped for clear tracking.

### 2. Remote PIN Code Management

Generate, share, or revoke permanent and temporary PIN codes anytime from your smartphone. Supports one-time PIN codes with a set expiration.

### 3. Smart Alerts and Notifications

Get instant push notifications for lock status, unauthorized attempts, failed unlock attempts, and low battery alerts.

### 4. Customizable Lock Settings

Enable or disable Quiet Mode, Safe Handle Mode, and adjust other lock behaviors directly through the app interface.

### 5. User Management System

Assign different access levels to family members, guests, or service providers. Supports up to 20 unique users for fingerprints, PIN codes, and key tags.

### 6. Voice Assistant Integration

Compatible with Alexa and Google Assistant for hands-free voice control. Lock or check status via simple voice commands.

### 7. Battery Status Monitoring

Live battery monitoring through the app ensures you stay informed, with proactive low battery alerts before power runs out.

## Philips 603E-5HWS Smart Lock Installation Process
